C – U LIGHTED SAFETY VEST

The basic C-U LIGHTED vest is made of a perforated material which is very lightweight and water resistant.

It is powered by 2 low voltage 1.5volt AA batteries, contained within a water and gas tight compartment.

The non mechanical switch can be selected to FLASHING, CONSTANT ON, or OFF positions.

It is suspected that the standard reflective strips on the normal HI-VIZ vests deteriorate quickly. The reflective qualities in the C-U vests DO NOT deteriorate in the same manner, because they are sealed in, BUT!!! they also protect you in TOTAL DARKNESS, something that the others SIMPLY cannot do.

There is no limit to the standards or design that the vest can be manufactured to.

The industrial uses are obvious from Police, Fire, other emergency services, railway workers, road repair squads, school crossing personnel, merchant seaman, the list is endless.

ORANGE or YELLOW INDUSTRIAL LIGHTED VEST

Industrial with Yellow or White reflective tape and red lights visible for up to a mile.

YELLOW LIGHTED HIGHWAY JACKET
